Safer Online Schools

A Unified School-wide Strategy

SafeOnline offers student and parent & caregiver presentations to help everyone start the school year with the same knowledge and tools.

Increase your school community's resilience and digital literacy.

SafeOnline

Safer Online Schools The Program

Build a safer, more aware school environment. Actively equip students and parents with the knowledge and skills needed to navigate the digital world with confidence.

'Parenting Strategies for Online Safety'

For Parents & Caregivers of Children Ages 5-15 - 90 Minutes

Give parents the tools to support their children in online spaces! They'll learn about the current online landscape, potential risks, and effective strategies for teaching digital literacy. Practical strategies for setting digital boundaries. Parents will walk away empowered, ready to reinforce safe online practices at home.

'Your Life Online'

For Students Grade 5-9 - One Hour

The Your Life Online assembly empowers students in grades 5-9 to confidently navigate the digital world. In just one hour, they'll learn about managing their digital reputations, protecting their privacy, and avoiding online drama. With a focus on real-world scenarios, students leave prepared to make smart, safe decisions online.

Learning That Lasts!

Each presentation includes access a curated selection of articles, videos, and tools that provide deeper insights into digital citizenship and online safety. For use both at home and at school.

Kids Encounter Serious Threats Online.

The digital world is filled with complex risks that students and families often aren't fully aware of. As children spend more time online, they are exposed to dangers such as cyberbullying, privacy breaches, and harmful content. Educating both students and parents ensures a unified approach to online safety, providing the knowledge and tools necessary to navigate these challenges. By addressing these issues proactively, schools can create a safer environment where students are empowered to make informed decisions and protect themselves online.
